## Summary

UI/UX Designer (Beginner) and B.Tech CSE student focused on designing clean, user-friendly interfaces and improving product experiences. Skilled in wireframing, prototyping, and building responsive UI layouts. Interested in product design, user flows, and solving real-world problems through user-centered design.

## Education

<b>Shri Ramswaroop Memorial College of Engineering and Management</b> <i>B.Tech in Computer Science and Engineering</i>	Sept 2023 – Present
<b>Lucknow Public School, South City</b> <i>Senior Secondary (Class XII) — PCM with Computer Science</i>	

## Experience

<b>Technical Lead</b> <i>AlgoZenith Student Chapter, SRMCEM</i>	Aug 2025 – Present
○ Led peer learning sessions and improved structured problem-solving approach within the community	
○ Conducted workshops on structured thinking and logical breakdown of problems	
○ Coordinated planning and execution of technical events with the core team	
<b>Faculty Connect &amp; PR Lead</b> <i>GeeksforGeeks Student Chapter, SRMCEM</i>	Oct 2024 – Present
○ Managed coordination and communication with faculty for events and workshops	
○ Designed promotion strategy and content to improve student participation	
○ Previously served as <b>Technical Coordinator</b> (Oct 2024 – May 2025)	
<b>Python Full-Stack Trainee</b> <i>SRDT Training Program (Campus Organized)</i>	
○ Worked on UI layouts and basic frontend design using HTML/CSS for mini-projects	
○ Collaborated on full-stack prototypes, improving user flow and feature structure	

## Projects

<b>AgroWise — UI/UX Prototype</b>	🔗
○ Designed a mobile-first UI prototype to assist farmers with crop guidance and decision support	
○ Created user flow for crop selection, recommendation, and action steps	
○ Focused on accessibility, clean typography, and simplified navigation for rural users	
<b>Nexa — Personal Assistant Dashboard UI</b>	🔗
○ Designed dashboard UI screens for an AI assistant tool (chat + task workflow layout)	
○ Created wireframes and high-fidelity UI screens focusing on clarity and minimal design	
○ Improved navigation and layout hierarchy using spacing and consistent components	
<b>CarbonTwin — Carbon Footprint Tracker UI/UX Concept</b>	🔗
○ Designed a mobile-first UI/UX concept for tracking daily carbon footprint and sustainability habits	
○ Created user flow for carbon input logging, emissions breakdown, and progress tracking dashboard	
○ Designed screen structure for onboarding, footprint calculator, analytics, and eco-challenges section	

## Skills & Tools

**UI/UX Skills:** Wireframing, Prototyping, User Flows, Responsive UI Design, Typography Basics

**Tools:** Figma, Canva, Adobe Express

**Technical (Optional):** HTML, CSS, JavaScript, Git, Python

## Certifications

<b>Python (Basic) Certificate</b> — HackerRank
<b>Web3 DApp Workshop</b> — HeLa CrossRoadshow
<b>Agentic AI Day</b> — Participation Certificate
